

CITY OF LUANA • MINUTES-CLAIMS 07.11.2024

LUANA CITY COUNCIL MINUTES OF JULY 11, 2024
 The Luana City Council held their regular monthly meeting Thursday July 11, 2024, at 7:00 pm. with Council Members Lonnie Baade, Kevin Boddicker, Todd Olson, Jackie Radloff-Schneider, Luke Steege present. Absent: None.
 Mayor Jerry Schroeder called meeting to order at 7:00 pm.
 Minutes of June meeting were reviewed and approved upon a motion by Steege, second by Olson, carried unanimously.
 Olson motioned to pay all monthly claims totaling \$65,261.25, Baade second, carried unanimously. Receipts for the month totaled \$62,379.22. Radloff-Schneider motioned to pass Res. 7-2024 T.O.F, Steege second, carried unanimously. Council reviewed reconciled reports.
 Recap of lagoon design meeting was discussed, Sarah Fosbinder, MSA, was in attendance. DNR site survey completed, Anti-deg approved, Facility Plan reviewed and awaiting signed separation waivers. City is still waiting for a few waivers to be returned from citizens. If not received, City will be forced to go with a much higher cost of lagoon upgrade. Boddicker motioned to approve \$2,000 additional cost for easements needed, Baade second, carried unanimously. Steege motioned to approve review of grading plan at a cost of \$1,850 and slope stability analysis at a cost of \$5,450 and denied additional soil borings at a cost of \$12,750,00, second by Olson, carried unanimously.
 Next regular council meeting will be held August 1, 2024, at 7:00 pm.

Mayor Schroeder adjourned the meeting at 7:15 pm.
Tammy Humble, City Administrator
Monthly Expenditures \$65,261.25: Alliant Energy \$5,911.20; Black Hills Energy \$150.99; Card Services \$1,393.03 (Software subscription); Dorsey & Whitney \$4,000.00 (Bonding Attorney); Column Software \$58.16 (Publication); Electric Motor Shop \$2,216.88 (Lift station repair); Federal Taxes \$1,521.08; HACH \$746.82 (Water supplies); IDNR \$33.02 (Water permit); IP-ERS \$1,193.38; John Deere Financial \$216.99 (Fire dept supplies); Kwik Trip \$56.16 (Fuel); M. Ward \$200.00 (Deposit return); Microbac \$1,146.25(Lagoon/water testing); MSA \$31,500.00 (Lagoon design); NEIT \$123.72; Post Office \$122.22 (Certified letters); State Withholding \$707.94; Three Rivers \$1,283.68 (Fuel); Wages \$8,045.07; Waste Management \$4,626.68; W.E.T. Tax \$7.98.Fire Department Expenditures \$298.86 ;General Fund Expenditures \$19,731.60; Propriety Expenditures \$43,933.14 ; Road Use Tax Expenditures \$1,297.65; TIF Expenditures \$0.
Monthly Revenue \$62,379.22: Farm to Market \$6,321.42; Franchise Fee (Black Hills) \$32.98; Grand Meadow \$1,000.00; Interest \$874.86; Local Option \$2,606.92; Monona Township \$6,941.84; Property Tax \$677.33; RUT \$2,199.63; SRF Loan \$15,750.00; Tobacco License \$75.00; Utilities \$25,899.24.

MONONA MUNICIPAL WATER DEPT • 2024 WATER QUALITY REPORT

2024 WATER QUALITY REPORT FOR MONONA MUNICIPAL WATER DEPT
 This report contains important information regarding the water quality in our water system. The source of our water is groundwater. Our water quality testing shows the following results:

CONTAMINANT	MCL- (MCLG)	COMPLIANCE TYPE	COMPLIANCE VALUE & (RANGE)	DATE	VIOLATION Yes/No	SOURCE
Total Trihalomethanes (ppb) [TTHM]	80 (N/A)	LRAA	8.00 (8 - 8)	09/30/2023	No	By-products of drinking water chlorination
Copper (ppm)	AL=1.3 (1.3)	90th	0.185 (0.0102 - 0.194)	2023	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
Lead (ppb)	AL=15 (0)	90th	3.50 (ND - 5)	2023	No	Corrosion of household plumbing systems; erosion of natural deposits
950 - DISTRIBUTION SYSTEM						
Chlorine (ppm)	MRDL=4.0 (MRDLG=4.0)	RAA	1.1 (0.63 - 1.57)	12/31/2023	No	Water additive used to control microbes
01 - TREATED TAP AT WELL #2						
Barium (ppm)	2 (2)	SGL	0.0584	05/25/2021	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
Fluoride (ppm)	4 (4)	SGL	0.5	05/25/2021	No	Water additive which promotes strong teeth; Erosion of natural deposits; Discharge from fertilizer and aluminum factories
Sodium (ppm)	N/A (N/A)	SGL	3.1	05/25/2021	No	Erosion of natural deposits; Added to water during treatment process
02 - TREATED TAP AT WELL #3						
Barium (ppm)	2 (2)	SGL	0.0573	05/25/2021	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
Fluoride (ppm)	4 (4)	SGL	0.6	05/25/2021	No	Water additive which promotes strong teeth; Erosion of natural deposits; Discharge from fertilizer and aluminum factories
Sodium (ppm)	N/A (N/A)	SGL	3.29	05/25/2021	No	Erosion of natural deposits; Added to water during treatment process

Note: Contaminants with dates indicate results from the most recent testing done in accordance with regulations.

DEFINITIONS
 • Maximum Contaminant Level (MCL) – The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
 • Maximum Contaminant Level Goal (MCLG) -- The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
 • ppb – parts per billion.
 • ppm -- parts per million.
 • pCi/L – picocuries per liter
 • N/A – Not applicable
 • ND – Not detected
 • RAA – Running Annual Average
 • Treatment Technique (TT) – A required process intended to reduce the level of a contaminant in drinking water.
 • Action Level (AL) – The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
 • Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
 • Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
 • SGL – Single Sample Result
 • RTCR – Revised Total Coliform Rule
 • NTU – Nephelometric Turbidity Units
GENERAL INFORMATION
 Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water posed a health risk. More information about contaminants or potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Published in The Outlook, Monona on July 17, 2024.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).
 If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. MONONA MUNICIPAL WATER DEPT is responsible for providing high quality drinking water but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

SOURCE WATER ASSESSMENT INFORMATION
 This water supply obtains its water from the sandstone and dolomite of the Cambrian-Ordovician aquifer. The Cambrian-Ordovician aquifer was determined to have low susceptibility to contamination because the characteristics of the aquifer and overlying materials provide natural protection from contaminants at the land surface. The Cambrian-Ordovician wells will have low susceptibility to surface contaminants such as leaking underground storage tanks, contaminant spills, and excess fertilizer application. A detailed evaluation of your source water was completed by the Iowa Department of Natural Resources and is available from the Water Operator at 563-880-7224.

CONTACT INFORMATION
 For questions regarding this information or how you can get involved in decisions regarding the water system, please contact MONONA MUNICIPAL WATER DEPT at 563-880-7224.

AMENDED NOTICE

AMENDED NOTICE IN THE COUNTY COURT OF SARPY COUNTY, NEBRASKA
 In the Matter of the Adoption of Bradley W. Stoeklen, Minor Child. Case No. AD 24-18
 TO: All Interested Parties
 Notice is hereby given that on March 11, 2024, in the County Court of Sarpy County, Nebraska, Wilkins Ray Tarver, whose address is 12921 S. 54th Street, Papillion, NE 68133, filed a Petition for Adoption. That Petition will be heard by the Honorable S. Colin Palm, Sarpy County Court Judge, in the County Court of Sarpy County, Nebraska, 1210 Golden Gate Drive, Courtroom 3, Papillion, Nebraska 68046, August 19, 2024 at 3:00 p.m. the object and prayer of which is to suspend or terminate your parental rights pursuant to a request for step-parent adoption. At that time, any person(s) objecting to entry of the final order may present their objections to the Court. No further Notice of final hearing will be provided. KELLY T.
